

SPRAY LAKE SAWMILLS

5 YEAR ACCESS PLAN April 1, 2018 to April 1, 2022

This table lists the individual operating areas that have been scheduled for activities by SLS. Roads held by SLS under DLO disposition and planned for use or being maintained during this five year period are also identified. Required access controls and the access control authority are indicated. The compartments are identified on the attached overview map. This table does not reflect other stakeholder roads that have been addressed under a master road use agreement, these will be addressed in Final Harvest Plans.

NOTE: All commercial enterprises wishing to utilize Spray Lake Sawmills DLO's must enter into road use agreements.

Operational Phases

Construction:	C	Clearing and grade construction
Maintenance:	M	Upkeep of running surface, crossings and erosion controls
Reclamation:	R	May include any or all options: Berms, bridge removal, cross-ditches, rollback of surface stripping, re-contouring
Reclamation Certificate:	RC	Apply for reclamation certificate and have disposition cancelled
Seasonal Authority:	SA	Required to enter and use road during Order In Council (O.I.C.) closure periods

	Operating Area	Disposition Holder	Road Name	CLASS	Access Control Required	DURATION and ACTIVITY (Annual Operating Period May 1 to April 30)				
						2017-18	2018-19	2019-20	2020-21	2021-22
